The best way to save on your heating

Are you unsure about the best way to save on your heating?
You can cut back on either heating or hot water. The chart below shows examples of where you can save most on your heating bill.

For more information, visit [SparEnergi.dk](https://sparenergi.dk)

Calculated assuming a flat of 90 m² heated by district heating at a price of DKK 0.7/kWh with annual heating bills of DKK 8,500. The price of district heating is a weighted average from the latest price statistics published by the Danish Utility Regulator (Forsyningstilsynet). The price covers both variable and fixed taxes and fees.
